### Results Entry

Scheme: **UKNEQAS Molecular detection of respiratory viruses**

Distribution: **4370**

Laboratory: Dispatch date: **24-09-2018**

Return results: **15-10-2018**

Status:  **NOT submitted**

Page: [Info](#) [Methods](#) [Spec:4650](#) [Spec:4651](#) [Spec:4652](#) [Spec:4653](#)  
[Final Page](#) [Blank form](#)

**Type:** Nasopharyngeal aspirate

**Clinical details:** A 2 month old baby with wheezing and cough

	<b>Specimen : 4650</b>
Virus result	<input type="text"/>
Type/sub-type	<input type="text"/>
Additional pathogen	<input type="text"/>
Virus test reading Ct value for method 1	<input type="text"/>
Virus test reading Ct value for method 2	<input type="text"/>
