[Blank form](#)

Two-year-old boy with acute laryngotracheobronchitis (croup)

	Specimen : 4737
Virus Overall Result	<input type="text" value="v"/>
Type/Subtype	<input type="text"/>
Direct detection method 1	<input type="text" value="v"/>
Direct detection reagent 1	<input type="text" value="v"/>
Direct detection method 2	<input type="text" value="v"/>
Culture ID method 1	<input type="text" value="v"/>
Culture ID reagent 1	<input type="text" value="v"/>
Culture ID method 2	<input type="text" value="v"/>
Referral	<input checked="" type="radio"/> Not Examined <input type="radio"/> Would NOT Refer <input type="radio"/> Would Refer
Cell Line used	<input type="text"/>
